Cover blurb:

'One day the Princess will be queen and, when that happens, she will be the Supreme Governor of our organisation. At which point, we will be in the position of having as our leader someone who is, in the eyes of the church, unmarried and living in sin. Unless we ask the Lord to bless her marriage now, how can we continue the same relationship with the crown? And what then for the spiritual life of the nation? We are the Church of England; we advise, and guide, and influence our lawmakers, and we've done so since Henry the Eighth's day.'

When Princess Alexandra, the eldest daughter of the Prince of Wales, wishes to marry her long-time partner, Lieutenant-Commander Grace Stephens, their wedding has the potential to cause a constitutional crisis. When the couple go further and request a blessing by the Archbishop of Canterbury, the British establishment must find a way to accommodate the wishes of the woman who will one day be the Supreme Governor of the Church of England.

In this thoughtful and thought-provoking novel, V. T. Davy examines the relationship between the monarchy and the church; the arguments for and against same-sex marriage; how some of Britain's oldest and most revered organisations have acted to give equality to homosexual men and women, and become stronger for it; and, what happens to institutions when they refuse to embrace the demands of an enlightened society. The novel's surprising conclusion is that those most damaged by institutionalised prejudice are often the people you would least expect.

It is a book that will test the opinion of every reader wherever they stand on these issues.

Author blurb:

Born in London, Vic Tanner Davy now lives in the Channel Islands. When not working in an office crunching numbers, Vic is a writer of LGBT fiction. Vic's first novel, *Black Art*, featured Arty Shaw, the world's first female-to-male transgender detective. It was named one of Kirkus Reviews' top 100 books of 2012.

Press release:

Channel Islands imprint, Liberation Publishing, is publishing its second novel, *A Very Civil Wedding* by Vic Tanner Davy, on 1 November 2013. It tells the story of what happens when Princess Alexandra, the eldest daughter of the Prince of Wales, wishes to marry her long-time partner, Lieutenant-Commander Grace Stephens. When the couple go further and request a blessing by the Archbishop of Canterbury, the British establishment must find a way to accommodate the wishes of the woman who will one day be the Supreme Governor of the Church of England.

Set two years in the future, the novel was written in response to the debates surrounding the issue of same-sex marriage that was happening last year in the UK and is still happening in many countries around the world. Vic Tanner Davy explains: "I came to write the novel because, whilst the debates over same-sex marriage were happening last year and earlier this year, I found myself struggling to understand what it was that individuals and organisations, in particular the Church of England, had against opening up marriage to homosexual couples. How could anyone be against something so patently fair? What was their problem?"

"In the age of flash news and impact sound bites, it is often difficult to really get to the heart of complex debates. Inevitably, this leads to shorthand name-calling by the two opposing sides of an argument. 'Homophobic' was one such name that was bandied about a lot, but I couldn't believe that some of the educated and erudite men and women expressing opinions, which were obviously deeply held, could simply be homophobic. There had to be more behind their objections. So, I set myself the task of finding out what their argument was all about. *A Very Civil Wedding* is the result of my research."

The novel is a relatively light read. At its heart is the romance between Princess Alexandra and Grace Stephens and it contains large dollops of humour, interspersed with the serious points about the arguments for and against same-sex marriage. The author hopes that it will attract readers from both sides of the argument and that, no matter where a reader starts on the issue, by the end of the novel, they will have shifted their position. VT Davy says, "My own support for same-sex marriage and opposite-sex civil partnerships has not been altered by the process of writing the novel, but I do now understand the difficulty of accepting the changes, that seem to be happening in leaps and bounds at the moment, for those who hold an opposing view."

A Very Civil Wedding is available from 1 November 2013 on Amazon, in digital and paperback, and from all good book stores.
